

Fresh off the drawing board of Robson Design studio's, the New XL490 has the most high tech hull design in its class. Constructed from twin skinned Polyethylene and foam filled using the B.I.F.F foam system, you can be assured it's virtually un-sinkable, indestructible and maintenance free.

With sleek, stylish lines and unbeatable finished quality, the XL490 is unparalleled amongst its competitors. Three different layout options mean the XL490 is equally suited to hard days working or lazy family days at the beach. Designed with active users in mind, the uncluttered and ample deck space gives ease of movement, so there is space for the serious angler to cast and land or the family to relax.

With a low total weight, beach launching and single handed use is easy, and with a lower required horse power and super low maintenance, the XL490 is guaranteed to get you out on the water more often and for longer.

Specifications

Length: 4.9m (16.2ft)
 External Beam: 2.0m (6.6ft)
 Hull Weight: 350kg (770lbs)
 Max Horsepower: 60Hp
 Deadrise: 18deg
 Hull Material: Polyethylene
 Hull Thickness: 12mm

CE Details

Design Cat: c
 Max rec. Load: 661kg
 Max # of People: 7
 Warranty: 5 years*
*Recreational. 1 Year Commercial.

Virtually indestructible, un-sinkable and maintenance free, Marine Revolution boats are your first choice in safety and durability. Rotationally moulded in top quality virgin grade polyethylene thermoplastic, Marine Revolution boats offer unrivalled hull thickness, positive buoyancy and a hull up to five times stronger than fibreglass. The Polyethylene contains powerful ultra violet stabilisers designed to survive in harsh environments. It is impervious to osmosis, corrosion, rot and rust and has no gelcoat or paint to maintain. A range of colour options for the hulls and cabins are available.

Marine Revolution boats also have the distinct advantage that they are fully recyclable. An important feature in a world where we are conscious of our impact on the environment.

The use of computer controlled equipment and the ability to mould in one-piece, double skin, without any structural stress points is a unique process. This process ensures quality and consistency is maintained at the highest level.

XL490 Series

SMARTWAVE XL490 Series

OPEN

An enormous open and flat deck provides ample room and carrying capacity for a variety of loads and applications. As a simple tiller steer option, the Open XL490 is ideal for rescue work, as a stable hunting platform or for on-site repairs and maintenance.

CONSOLE

Ample deck space and excellent sea keeping, allow the XL490 Console to tackle virtually any application a similar sized RIB would undertake, but with more space and less maintenance!

SPORT

The piece de résistance of the Smartwave range. Roomy, stylish, practical and bullet proof! The XL490 Sport is a perfect family or fishing boat. The screen and fold away canopy provide an all weather solution, and ample storage means space for both wet toys and dry gear.

Split screen (Sport model)

Casting Platform (Open and Console model)

Swivel bucket seats (Sport model)

Large under floor lockers

Stern bench seat. Incorporating battery locker, fuel storage, and dry storage or live bait well.

Optional canopy and boarding ladder
